OUR CORE VALUES: PASTA - P = Passion, A = Appreciation, S = Simplicity, T = Trust, A = Accountability

CUSTOMER OVERVIEW

This is a car automobile portal that caters to three different roles: Admin, Car owner and Shop owner. Admin has full access to the website as well as the car owner and shop owner accounts. Shop owner can manage all his customers(car owners). Car owner can add vehicle information and communicate with shop owner.

OUR CORE VALUES: PASTA - P = Passion, A = Appreciation, S = Simplicity, T = Trust, A = Accountability

PROBLEM STATEMENT

This application assists with provisioning of car service, repair and maintenance services. User should be able to register as car owner, find shop and contact the shop for service. Shop owners should be able to manage all their work from this website.

CIS SOLUTION

We outlined all the processes of client's business and reviewed all the details provided by the client. We took live example of the business, performed thorough analysis and created a structure for the project.

OUR CORE VALUES: PASTA - P = Passion, A = Appreciation, S = Simplicity, T = Trust, A = Accountability

A photograph of three men in a car repair shop. One man in a white shirt is holding a document and pointing at it, while two other men in light blue shirts look on. The background shows a car and a window with greenery outside.

CHALLENGES WHILE IMPLEMENTATION

We faced challenges with following features:

- ◆ User role management.
- ◆ Managing all vehicles for the specific car owner with their full details.
- ◆ Managing technicians for the work.
- ◆ Reminder, SMS, Email for the customer services.

POSITIVE OUTCOME

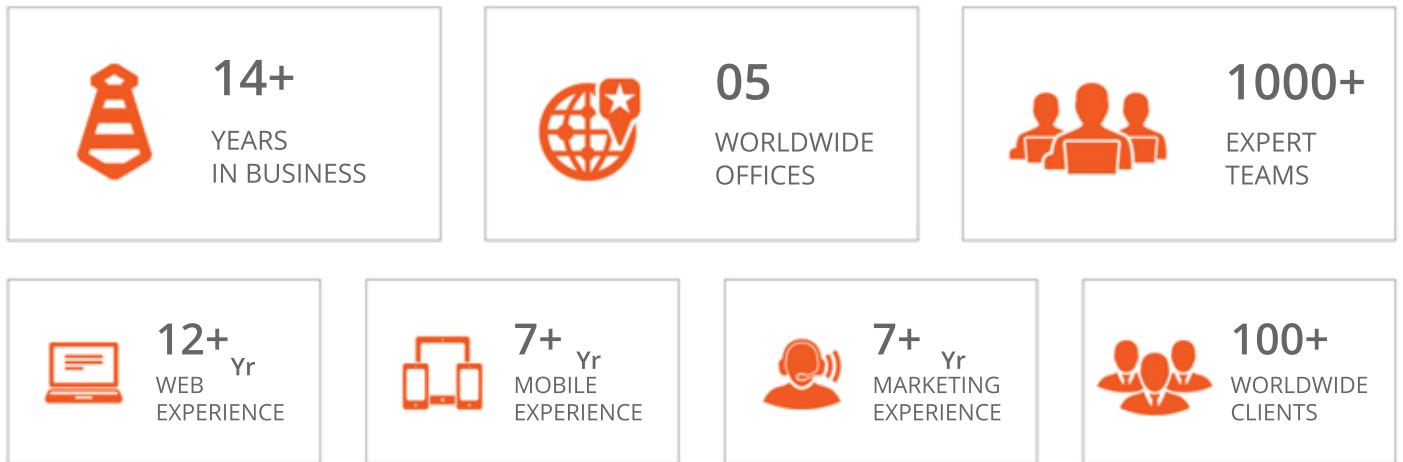

This application brings great operational efficiency into the car repair and maintenance services. While helping shop owners with their important business activities, the application also provides car owners with a great user experience through proper communication facilities.
