- Desktop application for playing games and make payment via same application.
- Redesigned home page and added very attractive new images.
- Added a module which shows the count of online users.
- Added a module which shows jackpot amount.

Problem Statement

Website Redesign and Enhancement

Client required us to redesign the whole website as they faced lot of problems in the current design. They wanted us to prepare proper website flow and add new functionalities.

CIS Solution

Redesigned Website for Great User Experience

As per the client requirement, we redesigned the whole website and prepared proper website flow. We also integrated some APIs into the newly designed website. The website now offers superior user experience.

Positive Outcome

After the website was redesigned, client received very good response from their users and also appreciated our services.
