Problem Statement

Display Huge Variety of News Efficiently

Client required a high-performing website for displaying news. The website should be able to fetch and display news from a huge range of categories and still operate promptly.

CIS Solution

Optimized Solution for Displaying News

News is stored in the database and fetched from the database to be shown on the live site. We used Cron to fetch news in various time intervals. Images are stored on our server for the purpose of display. We used Caching mechanism to improve the performance of site.

Positive Outcome

The website is a successful news portal where people can read latest news across various categories. The website's speed and performance are highly optimized.
